SUBJECT: Soviet Gold Shipments

25X1A 1. The papers referred to in the attached letter are probably IM 384 "The Significance of Recent Soviet Gold Sales" and any of a number of special reports prepared by S/TF/F for [REDACTED] or in answer to other requests from the DDI's office. General Porter would have received the IM through regular routing to JIG or A-2.

2. This office will make certain that a copy of ORR's PR "Soviet Gold Production and Export Capabilities," which is being written in ORR Project 40.308, is specially routed to General Porter.

3. General Porter's comment on an attempt to estimate the long term effect of a continuing increase in Soviet gold exports is appreciated and is being taken account of in further research in the Trade and Finance Branch.
